Internship Offer Letter

Student Name : VEMUGANTI AMRUTH SAGAR
Stream : B.Tech(Lateral Entry)
Branch : CSE
Institute Name : SR University
Internship Domain : Altair Data Science Master
Internship Duration : January 2026 - March 2026
AICTE Student ID : STU67fe2e9ab02bf1744711322

We are pleased to inform you that you have been selected for the 10-Week **AICTE – EduSkills Virtual Internship Program**.

During this internship, you will learn and demonstrate industry-relevant skills that will enhance your employability and strengthen your confidence in the subject area.

The program is designed to provide structured learning combined with practical exposure.

Internship Structure & Evaluation:

- The internship will follow a **week-wise structured learning plan**.
- You will be required to complete **weekly assessments** to track your progress and understanding.
- Certain modules will require submission of **project documentation and assignments**.
- In the final week, you must appear for a **Final Assessment Test**.
- The final grade will be based on your overall performance, including weekly assessments, project submissions, and the final test.

Upon successful completion of all required steps and assessments, you will be awarded a **Virtual Internship Certificate**.

Please note that this offer letter will be considered valid only after the successful completion of the internship program and fulfillment of all assessment requirements, including obtaining the final completion certificate. Without the final completion certificate, this offer letter shall not be treated as a valid document for any official purpose.

The week wise Structure of the Internship is as Follows:

Week	Module	Description
Week 1	Applications & Use Cases Professional	Learn to identify business problems suitable for AI and machine learning, map them to appropriate ML types, and understand key concepts and terminology.
Week 2	Data Engineering Professional	Learn to access, load, transform, and calculate data, handle multiple tables, manage data types, and process text for effective data engineering solutions.
Week 3	Machine Learning Professional	Build foundational machine learning skills including classification, clustering, regression, validation, scoring, weighting, and association analysis for data-driven insights.
Week 4	Data Preparation Master	Master advanced data handling, cleansing, text processing, automation with loops and branches, variables, error handling, and scripting for enriched data workflows.
Week 5	Machine Learning Master	Learn advanced machine learning including classification, regression, time series, feature engineering, scripting, model selection, validation, and optimization for robust data science solutions.
Week 6	Applications & Use Cases Master	Master deploying, monitoring, and managing machine learning models, including real-time scoring, production challenges, and building web apps for data-driven insights.
Week 7	Platform Administration Master	Learn to install, configure, and manage RapidMiner AI Hub, covering security, scalability, job scheduling, user and license management.
Week 8	Platform Administration Master	Gain expertise in administering the RapidMiner platform, handling extensions, connections, and enterprise-level platform operations efficiently.
Week 9	Assessment	Assessment
Week 10	Final Credential Validation	Final credential

Note: There is no stipend associated with this internship.

We congratulate you on your selection and wish you a successful learning journey.
